China Dinosaurs small group escorted palaeontology tours

Apr 02 2022 to Apr 13 2022

Small Group Tours China Dinosaurs

Visit some of the most exciting archaeological sites on this 12-day China Dinosaurs small group tour. This program is limited to just 15 travellers, to ensure the best possible archaeological experience. The tour is designed for those with an interest in studying the earth's palaeontological record in unique environments across rural China.

Palaeontologist Stephen Brusatte, in a 2018 interview with National Geographic, says "right now" is the golden age of discovery in dinosaur

research, with experts finding about “50 new species a year”. This is attributed to how countries that were once closed to the world have now opened up and developed their own groups of homegrown palaeontologists and researchers. China, Brusatte says, “is the hot spot”. Cosmos magazine reports that 50 new feathered species of dinosaur have been discovered across China’s large landmass since 1996. More fossils, dinosaur footprints, and dinosaur tracks continue to turn up. You can read more in our article on Dinosaurs and Dinosaur Fossils.

Small Group Tours China Dinosaurs Itinerary

The China Dinosaurs tour is based around four noteworthy archaeological sites. These are: Shenyang, Chengdu, Zigong, and Kunming. Highlights include exploring the Zigong Dinosaur Museum, one of the richest dinosaur fossil burial sites in China and one of the top three dinosaur museums in the world.

We visit the Paleontological Museum of Liaoning and the Beijing Museum of Natural History. The tour also includes a guided tour through the Lufeng Dinosaur Valley in the Yunnan Province, where we’ll see the Lufengosaurus, a plant-eating sauropod, and other sauropod dinosaurs.

Our escorted educational travel program for seniors includes several World Heritage site visits. These include the Peking Man Site at Zhoukoudian, the Jinsha Museum site, the Stone Forest near Kunming and the Panda Sanctuary. If you would like to learn more about China, visit our country profile where all other tour departures are listed as well

The China Dinosaurs program is part of a series of Dinosaur dig and archaeology tours offered by Odyssey Traveller. These programs are especially relevant for couples and single travellers interested in studying, learning about, and participating in the exciting world of

archaeology.

Tour Notes

- Group size is limited to a maximum of 15 participants.

Highlights

1. Explore Zigong Dinosaur Museum, one of the richest dinosaur fossil sites in China and one of the top 3 dinosaur museums in the world.
2. Encounter several World Heritage sites including the Peking Man Site at Zhoukoudian in Beijing and Dujiangyan Irrigation System.
3. See the Giant Panda Research Base and appreciate the famous Changing Face performance.
4. Visit the Dinosaur Valley in Lufeng with the largest concentration of dinosaur fossils and best conservation tour in the world.
5. Visit the Liaoning Museum of Paleontology, which houses extensive dinosaur specimens including the Anchiornis Huxleyi fossils.

Itinerary

China Dinosaurs small group escorted palaeontology tours

<https://www.odysseytraveller.com.au>

Day 1

Locations: Kunming

Overview:

We make our way individually to the hotel, before meeting in the evening for orientation and dinner in a local restaurant.

Accommodation:

Green Lake Hotel or similar

Day 2

Locations: Kunming

Overview:

This morning, we make our way to Chengjiang, an impressive pre-Cambrian fossil museum and the site of the Maotianshan Shales. These shales are an Early Cambrian deposit that are exquisitely preserved. They take their name from Maotianshan Hill in Chengjian County.

Accommodation:

Green Lake Hotel or similar

Day 3

Locations: Kunming

Overview:

Today we visit Stone Forest, a notable set of limestone formations located in Shilin Yi Autonomous County, Yunnan Province. This is located approximately 120 kilometres from the provincial capital Kunming.

The rocks at Stone Forest seem to emanate from the ground in the manner of stalagmites, with many looking like petrified trees, thereby creating the illusion of a forest made of stone. These formations, caused by the dissolution of limestone, are believed to be over 270

million years old and are a popular attraction.

Since 2007, this site has been listed as a UNESCO World Heritage Site. We will then visit the nearby Jiuxiang Karst cave. This is an active cave and we will walk past many interesting formations. We then board our coach back to Kunming.

Lunch will be included today.

Accommodation:

Green Lake Hotel or similar

Day 4

Locations: Kunming/Lufeng/Chengdu

Overview:

In the morning, we enjoy a guided tour of Lufeng Dinosaur Quarry, the site of numerous Jurassic dinosaurs' discoveries, the first of which was in 1938. The most well-known is Lufengosaurus, a Jurassic prosauropod. More recently, teeth and a skull of Ramapithecus, a Miocene period primate related to the orangutan, have been found in Lufeng. This museum houses the most ancient and primitive vertebrate fossils as well as the largest amount of specimens in the world. Lufeng also boasts the largest concentration of dinosaur fossils as well as the best conservation program in the world. You will be able to watch and even assist in the preparation of fossilised bones.

Afterwards, we make our way to Kunming airport for a late afternoon flight to Chengdu.

Accommodation:

Tianfu Sunshine Hotel or similar

Day 5

Locations: Chengdu

Overview:

After breakfast, we will travel to the Panda Reserve where research and breeding programs for these iconic animals are supported by the

State.

Then we will travel to the Sanxingdui Museum. The museum sits on an archaeological site now recognized as among the most important in the world. With our informative program leader, we explore the many Bronze Age relics that were unearthed in the 1980s, when more than 1,000 bronze, gold and jade artifacts were discovered.

These archeological discoveries changed people's understanding of ancient history and culture, as there was little to no previous knowledge of China's Bronze Age.

Accommodation:

Tianfu Sunshine Hotel or similar.

Day 6

Locations: Chengdu - Zigong

Overview:

This morning we travel to the historic Dujiangyan Irrigation System, an irrigation infrastructure built in 256 BC during the Warring States Period of China by the Kingdom of Qin. Located on the Min River, it is still in use today and irrigates over 5,300 square kilometres of land in the region.

After lunch we travel to Zigong.

Accommodation:

Zigong Huidong Hotel or similar.

Day 7

Locations: Zigong - Chengdu

Overview:

Today, we will enjoy a half day visit to the Zigong Dinosaur Museum, a large-scale local museum and one of the richest dinosaur fossil burial sites in China. Together with the American National Dinosaur Park and the Canadian Dinosaur Park, The Dinosaur Museum is known as one of top three dinosaur museums the world. It has also been named as one of "the forty best and most famous Chinese scenic tour sites" by

the Chinese. After lunch, we return to Chengdu.

This evening's dinner will be at your own arrangement at The Bookworm, Chengdu. Afterwards, we will enjoy an authentic Sichuan Cabaret which includes traditional folk art performances, including the fascinating "Face-Changing" show.

Accommodation:

Tianfu Sunshine Hotel or similar

Day 8

Locations: Chengdu - Shenyang

Overview:

This morning, we will visit Jinsha Site Museum in Chengdu, a world-class museum which focuses on the ancient Shu culture. The site shares similarities in burial objects with the Sanxingdui site. Ivory, jade artifacts, bronze objects, gold objects, and carved stone objects were found at the site.

After lunch, we take a mid-afternoon flight to Shenyang.

Accommodation:

Holiday Inn Hotel or similar

Day 9

Locations: Shenyang

Overview:

Today we will enjoy a half day visit to Liaoning Museum of Paleontology. The 15,000-square metre museum, the largest so far in China, showcases over 10,000 collections of paleontological fossils and remains, in 16 exhibition areas. The museum houses extensive dinosaur specimens including the *Anchiornis Huxleyi* fossils which dates back to the late Jurassic period (Oxfordian age), 161.0–160.5 million years ago. Following the 1996 discovery of fuzzy *Sinosauropteryx*, feathered dinosaurs have been unearthed in Liaoning. This has rewritten what we thought we knew about dinosaurs. The magnificent "Liaoning Giant Dinosaur Hall" displays eight giant

dinosaurs from Liaoning. Among them, the latest scientific achievement of the museum, the Liaoningotitan. At 15 metres long, it was recently shown to the public for the first time.

This afternoon we will visit to the former Imperial Palace, where the Manchu emperors stayed before moving to Beijing. The Shenyang Imperial Palace, one of the two best preserved imperial group-buildings in China, is located at Shenyang City, Liaoning Province. It enjoys equal popularity to the Forbidden City.

The Palace was built in 1625 when the Manchus declared Shenyang to be their capital. Famous for its strong characteristics of the Man nationality and its abundant cultural relics, the Shenyang Palace Museum now functions as a museum and exhibits a huge collection of ivory and jade art crafts, musical instruments, furniture, and Ming and Qing paintings

Accommodation:

Holiday Inn Hotel or similar

Day 10

Locations: Shenyang -Beijing

Overview:

We travel this morning from Shenyang to Beijing, with an anticipated late morning arrival. We will make our way to Peking Man Site at Zhoukoudian. This is the site of the 1921 discovery of Peking Man (*Sinanthropus pekinensis*). The site is not only an exceptional reminder of the prehistorical human societies of the Asian continent, but also provides insights into the process of evolution.

Afterwards, we return to Beijing and check into our hotel.

Accommodation:

Presidential Hotel Beijing or similar

Day 11

Locations: Beijing

Overview:

After breakfast we will enjoy a guided tour of the Beijing Museum of Natural History. The museum has a large collection of dinosaur fossils and mounted skeletons. These include the cast skeletons of Gasosaurus, Mamenchiaurus, Psittacosaurus, Tsintaosaurus.

The “Dinosaur World” of the museum is divided into two parts, “Jurassic Park” and “Cretaceous Park”. The “Jurassic Park” recreates the ecology site of 140 million years ago. The Mamengi dinosaur, Tuojiang dinosaur, Lufeng dinosaur, flesh-eating Yongchuan dinosaur, and Qi dinosaur all make an appearance.

The afternoon is free to explore Beijing.

We meet again in the evening for a farewell dinner at a Beijing duck restaurant.

Accommodation:

Green Lake Hotel or similar.

Day 12

Locations: Beijing

Overview:

Our tour concludes after breakfast.

Inclusions / Exclusions

What’s included in our Tour

- 11 breakfasts, 6 lunches, and 7 dinners.
- English speaking local guides in each city.
- Services of specialist tour leader for the duration of the tour.
- All field trips and associated entry fees as per the itinerary.

- High speed train ticket from Shenyang to Beijing.
- All travel in modern, air conditioned coaches.
- Gratuities and necessary tips.
- Economy flights from Kunming to Chengdu & Chengdu to Shenyang.

What's not included in our Tour

- Comprehensive travel insurance.
- International airfares and taxes.
- Additional sightseeing, entrance fees, and meals not stated in the itinerary.
- Bottled water and drinks.
- Items of a personal nature such as telephone calls and laundry.
