French History by Rail European short tour

French History by Rail offers participants an unforgettable journey through French history based in Paris. On this educational tour, based on Ina Caro's famous book of the same title, we live for almost two weeks in one of the central arrondissements of Paris. Using charming

Paris apartments as a base, we live as the locals do, enjoying the charms of Parisian life. We have time to enjoy the bustle of daily Parisian life, with morning coffee at the local boulangerie and visits to the local markets and beautiful arcades. In the evening there is, of course, time to explore while visiting local cafes and charming restaurants.

From this base, we come together each day as a small group to journey by rail to the beautiful mediaeval city centres of France. While here, we experience short tours in such historic and scenic cities as Caen, Chartres and Avignon. Riding the train is a great way to reach out into the history of this fascinating country.

French History by Rail Tour Itinerary

Exploring French History by Rail enables both couples and single travellers to journey with like-minded individuals. A couple of hours is all it takes to arrive in the heart of some of these magnificent cities. This gives us many hours to join a local guide for a walking tour of the city. We return towards the end of each day on a fast train back into Paris ready for another adventure the following day. On most days, the program provides us with the evening free to explore Paris.

Our start time each day is usually after the morning rush when we meet up with the program leader. Exploring French History by Rail, short tour, includes one overnight stay outside of Paris, in Avignon. This program is limited to a maximum of 15 people. Let the history of France come alive on this extraordinary cultural tour!
