# History of France by Rail | Escorted Small Group Tour for Seniors

May 12 2022 to Jun 01 2022

## History of France by Rail

History of France by Rail offers participants an unforgettable journey through French history based in Paris. On this educational tour, based on Ina Caro's famous book of the same title, we live for almost three weeks in one of the central arrondissements of Paris. Using charming Paris apartments as a base, we live as the locals do, enjoying the charms of Parisian life. We have time to enjoy the bustle of daily Parisian life, with morning coffee at the local boulangerie and visits to

the local markets and its elegant arcades. In the evening there is, of course, time to explore while visiting local cafes and charming restaurants.

From this base, we come together each day as a small group to journey by rail to the beautiful medieval city centres of France. While here, we experience short tours in such historic and scenic cities as Caen, Chartres, Rouen, Tours, and Avignon. Riding the train is a great way to reach out into the history of this fascinating country.

Exploring the History of France enables both couples and single travellers to journey with like-minded individuals. A couple of hours is all it takes to arrive in the heart of some of these magnificent cities. Consequently, we have many hours to join a local guide for a walking tour of the city. We return towards the end of each day on a fast train back into Paris ready for another adventure the following day. On most days, the program provides us with the evening free to explore Paris.

Our start time each day is usually after the morning rush when we meet up with the program leader. This escorted European small group tour for seniors includes just two overnight stays outside of Paris, in Tours and Avignon. This program is limited to a maximum of fifteen people. Let the history of France come alive on this extraordinary cultural tour!
