Ancient History of Jordan | Escorted Small Group Tour

Oct 26 2024 to Nov 03 2024

Journey through Jordan

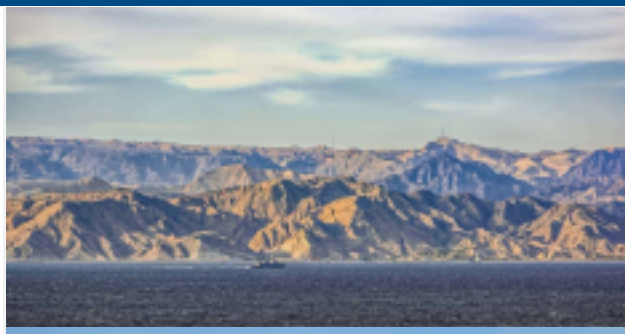

The historical riches of Jordan serve as a reminder of its long history at the heart of the Middle East. In ancient times, Jordan was a pivotal link between the Persian and Greco-Roman empires. During Odyssey Traveller Australia's tour of Jordan we visit the capital Amman, the Dead Sea, the ancient Desert Castles, and the ancient city of Petra. This group tour is ideal for those looking to experience the iconic culture,

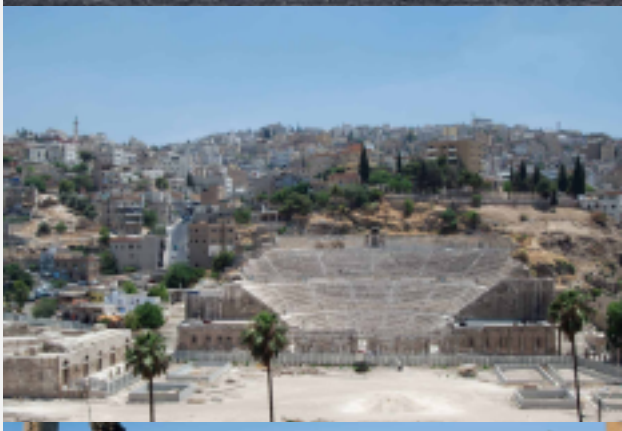

architecture, and desert landscapes of Jordan.

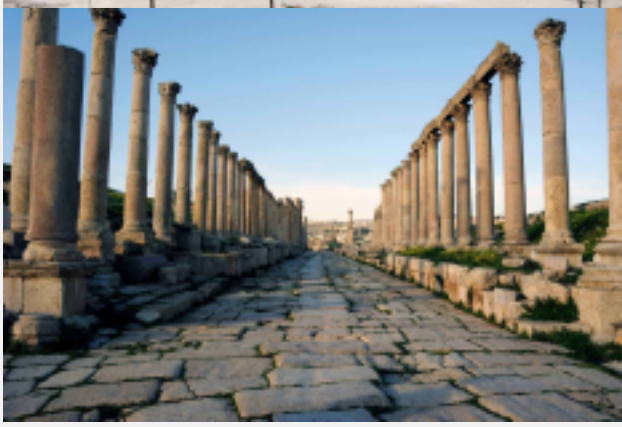

Arriving in Amman, we will see the Archaeological Museum, the Folklore Museum. We will also visit The Blue Mosque, a spectacular holy structure built in the 17th century.

After Amman, we travel to the ancient city of Jerash. Jerash is visually stunning, with paved and colonnaded streets, soaring hilltop temples, theatres, spacious public squares and plazas, baths, fountains and city walls.

We also explore Madaba, a city best known for the famous 6th-century mosaic map of Jerusalem & the Holy Land. Madaba is also home to Byzantine and Umayyad mosaics.

Ancient History of Jordan Small Group Tour Highlights

In addition to several amazing buildings and castles in Jordan, we visit Shobak Castle. It is an early 12th century Crusader castle in barren surroundings. The castle is perched on the side of a rocky conical mountain, 1300m above sea level, overlooking fruit trees below.

Another significant highlight of the trip is the Nabatean Red Rose city of Petra, one of the 7 wonders and a UNESCO World Heritage site. We enter the city through a 1km long narrow gorge which is flanked either side by towering 80m high cliffs. There are dazzling colours and formations formed by the rocks. The massive site contains hundreds of elaborated rock-cut tombs, a treasury, Roman-style theatres, temples, sacrificial altars and colonnaded streets. As you walk through the scenery is incredible. This Petra tour is an amazing travel experience.

We also visit the striking desert valley of Wadi Rum, one of the natural wonders of Jordan. Wadi Rum is known by locals as the ‘valley of the moon’ and was featured in the 1962 film *Lawrence of Arabia*. Today, the valley is home to a Bedouin desert camp and is a launching point for

adventure travel.

At the end of the guided tour we arrive at Aqaba, by the Red Sea. From here we enjoy a day trip to the famous Dead Sea. Here, we will find ourselves at the lowest point on earth, 410m below sea level. The Dead Sea Scrolls (ancient Jewish manuscripts) were found buried in the Qumran Caves of the north shore.
