Sturt's Desert Drama

by Ivan Rudolph

This is the story of Charles Sturt's trip to penetrate Australia's mysterious centre. South Australia is sliding into bankruptcy and the colonials look to Sturt. As "Father of Australian Exploration" they needed him to find rich lands to rescue the South Australian economy. As one perishes, others wondered who would be next. Could their steely resolve force the Inland to yield its secrets? The explorer's original diaries and letters are quoted from freely, to enable you to ride into the fierce, blazing deserts with them and to feel what they felt and picture what they saw.

Burke and Wills: The triumph and tragedy of Australia's most famous explorers

by Peter FitzSimons

The iconic Australian exploration story - brought to life by Peter FitzSimons, Australia's storyteller. 'They have left here today!' he calls to the others. When King puts his hand down above the ashes of the fire, it is to find it still hot. There is even a tiny flame flickering from the end of one log. They must have left just hours ago. MELBOURNE, 20 AUGUST 1860. In an

ambitious quest to be the first Europeans to cross the harsh Australian continent, the Victorian Exploring Expedition sets off, farewelled by 15,000 cheering well-wishers. Led by Robert O'Hara Burke, a brave man totally lacking in the bush skills necessary for his task; surveyor and meteorologist William Wills; and 17 others, the expedition took 20 tons of equipment carried on six wagons, 23 horses and 26 camels. Almost immediately plagued by disputes and sackings, the expeditioners battled the extremes of the Australian landscape and weather: its deserts, the boggy mangrove swamps of the Gulf, the searing heat and flooding rains. Food ran short and, unable to live off the land, the men nevertheless mostly spurned the offers of help from the local Indigenous people. In desperation, leaving the rest of the party at the expedition's depot on Coopers Creek, Burke, Wills, Charley Gray and John King made a dash for the Gulf in December 1860. Bad luck and bad management would see them miss by just hours a rendezvous back at Coopers Creek, leaving them stranded in the wilderness with practically no supplies. Only King survived to tell the tale. Yet, despite their tragic fates, the names of Burke and Wills have become synonymous with perseverance and bravery in the face of overwhelming odds. They live on in our nation's history - and their story remains immediate and compelling.

The Crow Eaters: A journey through South Australia

by Ben Stubbs

Outsiders think of South Australia as being different, without really knowing much about it. Combining his own travel across the million-square kilometres of the state with an investigation of its history, Ben Stubbs seeks to find out what South Australia is really like. In the spirit of the best travel writing and literary non-fiction, he lingers in places of quiet beauty and meets some memorable people. Along the way he debunks most of the clichés that plague the state. Travelling to Maralinga, Ceduna, Kangaroo Island, the Flinders Ranges, Coober Pedy, the storied Adelaide suburb of Elizabeth and the once-mighty river that is the Murray, Stubbs brings this diverse state to life. He even addresses head-on the question 'Is South Australia weird?' Readers will find it hard to resist the book's implicit invitation to take a look at places much closer to home, to take the time to drink in dramatic landscapes that are slow, deep and speckled with unforgettable characters.

A History of South Australia

by Paul Sendziuk, Robert Foster

A History of South Australia investigates South Australia's history from before the arrival of the first European maritime explorers to the present day, and examines its distinctive origins as a 'free' settlement. In this compelling and nuanced history, Paul Sendziuk and Robert Foster consider the

imprint of people on the land - and vice versa - and offer fresh insights into relations between Indigenous people and the European colonisers. They chart South Australia's economic, political and social development, including the advance and retreat of an interventionist government, the establishment of the state's distinctive socio-political formations, and its relationship to the rest of Australia and the world. The first comprehensive, single-volume history of the state to be published in over fifty years, *A History of South Australia* is an essential and engaging contribution to our understanding of South Australia's past.

Yura and Udneyu: A history of the Adnyamathanha of the North Flinders Ranges

by Peggy Brock

The beautiful, rugged north Flinders Ranges is the home of the Adnyamathanha. Their creation stories tell of their physical and cultural longevity in the region. However, their lives and community were seriously disrupted with the advent of British colonialism from the mid-nineteenth century. Using firsthand accounts from Adnyamathanha and archival sources this book traces the history of colonial incursion and Adnyamathanha responses from 1840 to the era of native title in the twenty-first century. From early violent encounters between Adnyamathanha and colonists looking for land to graze their stock, employment of Adnyamathanha in the pastoral and mining industries, through hard times during droughts and economic depression, the establishment of the United Aborigines Mission at Nepabunna, to the era of self-determination in the 1970s, Adnyamathanha have shown great resilience in their ability to adapt to changing circumstances while maintaining a strong sense of identity and community. Throughout, they have seized opportunities to inform the wider society of their cultural knowledge and maintain their rights to country.
