Tour of London: 5-day small group tour

Explore the greater city of London on a small group tour with Odyssey Traveller for 4 full days.

London is the capital of England and the United Kingdom and one of the major metropolitan centres in the European continent. Its history stretches back to the Romans, who founded the ancient settlement of Londinium in 43 AD. The Romans' London Wall was a defensive wall built around the city and which defined its boundaries until the late Middle Ages. Though the wall was dismantled around the 1700s,

sections of it are still visible, snaking through private and public establishments in the city of London. Left largely abandoned after the fall of the Roman Empire, the city later grew and became increasingly prosperous until London itself became the seat of a vast empire that reached its peak during Queen Victoria's reign. The growth of industry ushered in the Industrial Revolution, which led to Britain accounting for nearly a quarter of global industrial production in the 19th century, with British workers becoming the richest men and women in Europe. But the mass migration of people from the countryside to the city also resulted in overcrowded housing, pollution, and unsanitary, disease-ridden living conditions. By the mid-18th century, London was a city of 750,000 people, filled with factories that burned coal and blanketed its buildings with soot. Working and living conditions improved with new government regulations, and the city, surviving widespread damage brought by two world wars, remains an important cultural and commercial centre in the world.

This small group tour is offered to travellers who are seeking a five-day extension in the city as part of an Odyssey Traveller escorted small group tour. Travellers may also consider joining the **21-day Queen Victoria's Great Britain tour**, which begins in London and explores other cities in Great Britain.

The tour stays in a centrally located hotel in London. Each day we set out to explore various parts of the city, typically using public transport, including the London tube on occasion, taxis and the rail network to reach the destinations selected, taking in 2-3 key features or attractions of the city. We will be aided by knowledgeable, local guides who share the ancient, classical, and recent history of the city with the group as we explore. We typically use public and private transport or walk around the city for visits.

Highlights of this London small group tour:

- Walk the **London Wall** and view a portion of the wall underground at Spitalfields Market.
- View the **Temple of Mithras**. The remains of the temple was

discovered in 1950s in Walbrook and was reconstructed for public viewing. The religion and rituals centred on the god Mithras remains a mystery, though we know the Mithraic religion was practised in Rome, especially among members of the Roman military. The **Museum of London** houses relics from the original temple.

- Walking along the Thames will give us a view of the many places we can explore: **Big Ben**, the **Houses of Parliament**, the **London Eye**, **Tate Modern** and Shakespeare’s **Globe Theatre**.
- Enjoy one show at the theatre in the west end.
- Attend typically with a guide up to 3 exhibitions in London
- In 2019, **Buckingham Palace** is open to visitors from July 20 until September 29. Visit the Queen’s official London residence and explore its lavish State Rooms.
- Take the train to Eton/Windsor for the day with a local guide touring this local area.
