Experience the Northern Lights with our Northern Lights small group tour in the outermost regions of Finland and Norway – from Saariselkä to Tromsø, high up beyond the Arctic circle. This vacation with Odyssey Traveller will give you the best chance of hunting down the Aurora Borealis (Northern Lights), both by sea and by land. Along the way you also have the opportunity to try a variety of winter activities. These include a reindeer safari, husky dog sledding and snowmobiling whilst also learning about the Sami people and the Vikings.

Northern Lights Tour Itinerary

We start our tour in the wonderful capital of Finland, Helsinki and spend time to visit all the must-see attractions of the city. Then we transfer to Saariselkä, where we enjoy a sleigh ride (sledge pulled by snowmobile) and catch the first glimpse of the Northern Lights. We then cross the border to Norway and visit Karasjok, the Sami capital (the Sami are the people indigenous to the area). Next day we are headed to North Cape, the northernmost point of Europe situated on Magerøya Island. We then travel back south to reach Tromsø, where we enjoy a Northern Lights safari taking us away from the city giving us the best chance to catch the Aurora borealis.

Of course everyone would like to document this once in a lifetime opportunity so Odyssey Traveller have you covered with an article on Photographing the Northern Lights. You can also read our FAQs which answers the most common questions about the Northern Lights.

You can learn more about Finland and Norway with our country profile where all other tour departures are listed as well. If you are interested in visiting Scandinavia, we offer tours to Denmark, Iceland, Greenland, about Scandinavian Design visiting several countries, or you could take the Trans-Siberian Railway from Helsinki to Irkutsk.
