## Faroe Islands small group Tour.

Explore the Faroe Islands on this fully escorted, small group tour designed for senior and mature travellers, travelling as a couple or as a solo traveller. This tour gives you chance to visit some of the islands' most stunning sights and to explore the capital of Tórshavn, while discovering the interesting history of the Faroes and its unique culture.

The mysterious Faroe Islands is a North Atlantic archipelago lying about halfway between Norway and Iceland. Though closer to the United Kingdom than Scandinavia, the Faroes is a self-governing region of the Kingdom of Denmark. Made up of 18 pristine volcanic islands, it is home to a population of only 50,000 people who are outnumbered by sheep nearly two to one

. Only a short flight from Scotland, the Faroes are off most standard travellers' radars. Something of an open secret, the islands do not appear in many world maps and the Faroese tourism board had to persuade Google to include the islands in Google Street View through a 2016 marketing campaign called Sheep View, where they strapped a camera to a sheep travelling all over the islands. Yet, for the tourists who do find their way here, the Faroe Islands offer breathtaking natural landscapes, rugged terrain, verdant green pastures and jaw-dropping cliffs and waterfalls to explore.

During the four-day tour we will base ourselves in Torshavn, which is one of the world's smallest capitals, and travel to different parts of the archipelago including the villages of Gásadalur, Vestmanna, Kirkjubøur and Gjógv. This allows you to explore all corners of this beautiful collection of islands, taking in the epic coastline, magnificent sea cliffs and colourful scenery.

## Highlights of the tour

**Torshavn**, named for the Norse god Thor, is home to a third of the Faroese population. A picturesque harbour city with a quaint and colourful old town, Torshavn has been the capital of the Faroes since AD 850. On the tour, you will visit Tinganes, the area of the city where the Norse established their parliament almost 1200 years ago. Today, Tinganes is a collection of pretty turf-roofed cottages and a great spot for an afternoon stroll.

The village of **Gasadalur** is where you can view the spectacular and iconic **Mulafossur Waterfall**. The waterfall is like something out of a fairytale, set against mystical cliffs carpeted in green. While it is not the biggest or most powerful waterfall, the surrounding beautiful scenery is what makes it such a popular attraction. From Gasadalur you can see Mykines Island or 'Puffin Island'. This tiny island has a population of just 10 people but is home to thousands of breeding puffins over summer. With a panoramic view of the island from Gasadalur it is the perfect place to catch sight of the puffins in flight.

On the tour you will visit the incredible **Vestmanna bird cliffs** by boat.

This is one of the most amazing experiences one can have in the Faroes, sailing from the village of Vestmanna along the west coast of the island of Streymoy to the soaring cliffs and sea stacks. The magnificent boat tours to the wild Vestmanna bird cliffs of northwestern Streymoy are probably the highlight of a visit to the Faroe Islands. When the weather's fine, you sail from Vestmanna along the west coast of Streymoy to towering cliffs and sea stacks, catching sight of dazzling birdlife such as kittiwakes, guillemots and fulmars who nest in the caves of the cliffs. On the boat, you sail through deep grottoes and narrow streets, experiencing the 700m high cliffs from all angles. Nearby, Kirkjubøur was the episcopal centre of Streymoy in the Middle Ages and you can delve into the history by visiting some of the unique ruins of the Saint Magnus Cathedral, the Maria church and the Roystovan Museum.

The tour visits the cosy coastal village of **Leynar**, where you have to chance to learn more about wood craftsmanship, before travelling to **Eysturoy**. One of the great things about travelling around the Faroe Islands is the remarkable road-tunnels that allow you to easily access different islands by coach or bus. **Gjógv** is a village located on the northeast tip of Eysturoy and driving to Gjógv gives you the chance to take in more of the Faroes' dramatic scenery, including the highest mountain in the Faroes, Slættaratindur (882m).

Given the proximity of the Faroe Islands to Scotland, you may be interested in doing this tour as an extension of one of our Scottish Isles tours. We will then transfer to the capital of Tórshavn, where we will be based for the full four nights all the main sights in the Faroes are easily reachable within 1-1.5hrs' drive of the town.
