## Walking in Greece

Join Odyssey Traveller as we go walking in Greece, venturing beyond the famous tourist destination of Athens and the Greek islands' well-trodden paths—and into the small villages and breathtaking sites of northern mainland Greece. Our guided walking tour will take us to towns carrying the names, ancient sites, and cultural marks of the Hellenic Republic's long history and incredible mythology—Western Macedonia,

Ioannina, Epirus, Meteora, and even the slopes of Mount Olympus.

After city tours in Athens and Thessaloniki, we will begin our walking tour in earnest in the mountainous municipality of Grevena in Western Macedonia, a truly small town (fewer than 200 residents). We will walk through lush forests and up mountain slopes, along lakefronts and beach shores, heading to small waterfalls and clear springs, and up viewpoints to see incredible geological formations such as the Vikos Gorge and the cliff-top monasteries of Meteora, a UNESCO World Heritage Site.

We will enjoy meals at local tavernas and try sumptuous dishes featuring local specialties. We will also have days where we will have picnic lunches, sitting in the midst of beautiful sceneries, and free time to explore the villages on our own. We will then loop back to Thessaloniki and Athens, our city starting points.

This small group tour will be accompanied by an Odyssey Program Leader and local guides who will impart their knowledge about the places we will visit.

Odyssey Traveller has been serving global travellers since 1983. Odyssey conducts educational tours with small groups of mature and senior travellers who are travelling with their partner or as a solo traveller. Odyssey's small group tours focus on history, culture and architecture. Group size is typically between 6 to 12 people. This article on fitness and choosing women's walking shoes are likely to be helpful for the reader. The cost of the tour is inclusive of all entrances (unless otherwise indicated), tipping, and majority of the meals.

## Tour Highlights

### Athens

This tour begins in Athens, the capital and largest city of the modern-day Greek Republic. Thousands of years ago, when Hellas was not a single unified nation, Athens was one of its most important self-governing city-states (*poleis*; singular form: *polis*). The cradle of

democracy, birthplace of prominent philosophers such as Socrates and Plato, Athens was the centre of Greek civilised life and the wellspring of the artistic, philosophical, and intellectual ideas that still guide us to this day. Here we will see city highlights such as the Acropolis and the Temple of Zeus.

## Thessaloniki

Thessaloniki, located 520 kilometres north of Athens, is Greece's second largest city. Formerly known as Salonika and Thessalonica, it was founded in 316 BC and named after a sister of Alexander the Great. It was once the capital of the Roman province of Macedonia and prospered under the Byzantine Empire. We will see the White Tower of Thessaloniki, the symbol of the city, located on its waterfront, formerly a Byzantine and Ottoman fortification, and stroll in Ano Poli, Thessaloniki's old town, a beautiful mix of traditional buildings and monuments dating from the city's Byzantine and Ottoman eras.

## Portitsa Gorge

We will begin our walk from the village of Spilaio (Grevena, Western Macedonia) to the Portitsa Stone Bridge, using an old stone path that the locals used for centuries in order to access the springs of the Venetikos river. There are two giant rocks standing at the entrance of the Portitsa gorge, considered one of the most beautiful locations in northern Greece.

## Papigo

Papigo (also spelled Papingo), located inside the Vikos–Aoös National Park, is considered a mountain paradise and attracts many hikers and mountaineers all over the world.

We will go for a hike in the Aoos Gorge, formed by the steady flow of the Aoos River from which it gets its name. The river is surrounded by greenery, which makes for a relaxing and captivating backdrop for our

walk

We will also visit Papigo's Ovires natural pools, created naturally by the erosions of the limestone rock bed caused by the flowing stream of the Rogovo. Locals created barriers, allowing water levels to rise and create swimming pools that can be enjoyed during the summer.

## Vikos Gorge

This will be followed by a morning hike from Papigo to Voidomatis Spring at the bottom of Vikos Gorge. This is a relatively easy, relaxing hike, as we walk surrounded by the verdant forests, ending in the clear, blue-green waters of the spring in the village of Vikos.

We will also walk to the Stone Forest, which shows layers of natural rock formations that look like a literal forest, and onwards to the Oxia viewpoint, which offers a breathtaking view of the Vikos Gorge.

The Vikos Gorge, which begins in Monondendri and ends in Vikos, has a depth ranging from 120 to 490 metres, carved by the Voidomatis River. The Vikos Gorge is a deep, cross-section of a mountain, and we will be able to spot the rock formations exposed on its slopes from our vantage point.

## Meteora

The UNESCO World Heritage Site of Meteora, sharing an etymological root as *meteor*, means "suspended in the air", which describes this unique geological formation. Meteora's enormous rock columns are home to a large complex of Eastern Orthodox monasteries. These monasteries—24 originally, with six functioning—were built on top of these natural pillars around the 15th century.

We will explore this unique landscape on foot, following the hiking paths of the ancient monks. We will also have the opportunity to visit one of these cliff-top monasteries.

## Mount Olympus

We will begin at the base of Mt Olympus, Greece's highest mountain, with a visit to the Olympus National Park Information Center. Here we will learn more about the history, mythology, geology, and the flora and fauna of the area.

We will take a drive to the eastern slopes of Olympus, where we will begin our hike to the Enipeas Gorge. On the way to the canyon, we will pass through lush greenery, wooden bridges, natural pools, and small waterfalls.

This is a great entry to Odyssey Traveller's existing collection of [walking holidays](#). Odyssey Traveller offers a number of small group European walking tours that appeal to a range of fitness levels.

It's hard to beat the pleasure of a walking tour. While we appreciate the comfort and speed of a coach or train, exploring a new place on foot means that, wherever you go, you will properly discover the sights, sounds, and smells of a place visited. Individual moments will be more memorable, there will be time to appreciate the beauty of nature, and you will also likely find yourself chatting with companions.
