Sicily: A Short History, from the Greeks to Cosa Nostra  
by John Julius Norwich

Sicily is the key to everything’ Johann Wolfgang von Goethe  
The author of the classic book on Venice turns his sights to Sicily  
in this beautiful book full of maps and colour photographs. ‘I  
discovered Sicily almost by mistake . . . We drove as far as Naples,  
then put the car on the night ferry to Palermo. There was a degree  
of excitement in the early hours when we passed Stromboli,  
emitting a rich glow every half-minute or so like an ogre puffing on  
an immense cigar; and a few hours later, in the early morning  
sunshine, we sailed into the Conca d’Oro, the Golden Shell, in  
which the city lies. Apart from the beauty of the setting, I  
remember being instantly struck by a change in atmosphere.  
The Strait of Messina is only a couple of miles across and the  
island is politically part of Italy; yet somehow one feels that  
one has entered a different world . . . This book is, among other  
things, an attempt to analyse why this should be.’  
The stepping stone between Europe  
and Africa, the gateway between the East and the West, at once  
a stronghold, clearing-house and observation post, Sicily has  
been invaded and fought over by Phoenicians and Greeks,  
Carthaginians and Romans, Goths and Byzantines, Arabs and  
Normans, Germans, Spaniards and the French for thousands of  
years. It has belonged to them all - and yet has properly been  
part of none.  
John Julius Norwich was inspired to become a writer by his  
first visit in 1961 and this book is the result of a fascination  
that has lasted over half a century. In tracing its dark story,  
he attempts to explain the enigma that lies at the heart of  
the Mediterranean’s largest island. This vivid short history  
covers everything from erupting volcanoes to the assassination  
of Byzantine emperors, from Nelson’s affair with Emma Hamilton  
to Garibaldi and the rise of the Mafia. Taking in the key  
buildings and towns, and packed with fascinating stories and  
unforgettable characters, Sicily is the book he was born to write.

Caravaggio: Art, Knighthood and Malta  
by David M. Stone and? Keith Sciberras

Caravaggio’s sojourn on the island of Malta in 1607-08 is one of  
the most fascinating episodes in Baroque art. The painter had  
committed a murder in Rome in May 1606 and subsequently fled  
to Naples, where he soon became well-known for his gritty,  
naturalistic altarpieces. Suddenly, in the
early summer of 1607, he decided to leave his thriving Neapolitan studio for the newly built city of Valletta, the headquarters of the Knights of Malta. The chance to obtain a knighthood and redeem himself for his Roman crime was no doubt foremost in his mind. Written by two leading authorities in the field, this richly illustrated book tells the story of Caravaggio’s voyage to Malta, his interactions with the Knights and their leader, Grand Master Alof de Wignacourt, and the magnificent paintings he made for them. Among the works he produced on the island are the *Beheading of St John the Baptist* - his largest and only signed picture - and the *St Jerome Writing*, a canvas of exceptional psychological force. The book presents new iconographic, technical, and stylistic analyses of all of the Maltese pictures as well as two chapters devoted to discussions of Caravaggio's importance in the history of art and the chronological problems in his late works. Based on original archival research, this study also includes an account of Caravaggio's crime in Malta, his imprisonment, and his daring escape to Sicily.

**Caravaggio: The Art of Realism**
by John Varriano

The dramatic realism of Caravaggio's art has fascinated viewers since the seventeenth century. Yet no prior monograph presents the thorough investigation of Caravaggio’s “realism” ventured in John Varriano’s remarkable book. Forgoing the “life and works” format of most earlier monographs, Varriano concentrates on uncovering the principles and practices—the intellect and the imagination—that guided Caravaggio's eye and brush as he made some of the most controversial paintings in the history of art. Caravaggio's irascible personality, libertine sexual preferences, and lawless, even murderous, behavior have attracted as much heated commentary as his realism. Varriano sheds important new light on these disputes by tracing the autobiographical threads in Caravaggio’s paintings and framing these within the context of contemporary Italian culture. Ultimately, Varriano links Caravaggio's aggressive persona and innovative methods to changes taking place throughout seventeenth-century Europe. *Caravaggio: The Art of Realism* begins with a highly original investigation of the artist’s studio practices. In subsequent chapters, Varriano discusses Caravaggio’s response to the material culture of his day, his use of gesture and expression, and his eroticism and violence as well as other issues central to the painter’s legendary realism. *Caravaggio: The Art of Realism* will appeal to students and the general reader as well as to specialists in the field. Varriano has a gift for presenting complex scholarship in a clear, accessible way. The book contains numerous color illustrations that will help readers experience Caravaggio's art and follow the author’s informative discussion of such famed paintings as *Love Victorious* and *David with the Head of Goliath*.
Caravaggio: Realism, Rebellion, Reception
by Genevieve Warwick (ed.)

This volume considers Caravaggio's revolutionary "realism" from a range of perspectives by a plurality of leading scholars. First, it advances our understanding of Caravaggio's relationship with the "new" science of observation championed by Galileo. Second, it examines afresh the theoretical nature of Caravaggio's seemingly direct "realism." Third, it extends the horizons of research on Caravaggio's complex intellectual and social milieu between high and low cultures. Fourth, it redefines our understanding of the relationship between Caravaggio's life and his art in historical terms. As some reviewers have indicated, this book does not contain colour reproductions of Caravaggio's works. Rather, it is best suited for the reader seeking to learn more about Caravaggio study from leading experts.

M: The Man Who Became Caravaggio
by Peter Robb

A New York Times Notable Book of the Year - As vividly and unflinchingly presented herein with "blood and bone and sinew" (Times Literary Supplement) by Peter Robb, Caravaggio's wild and tempestuous life was a provocation to a culture in a state of siege. The end of the sixteenth century was marked by the Inquisition and Counter-Reformation, a background of ideological war against which, despite all odds, brilliant feats of art and science were achieved. No artist captured the dark, violent spirit of the time better than Caravaggio, variously known as Marisi, Moriggia, Merigi, and sometimes, simply M. As art critic Robert Hughes has said, "There was art before him and art after him, and they were not the same."
Reviewer Hilary Spurling wrote for the New York Times, "Robb's prime aim in his remarkable "M"?part biography, part costume drama, part art-history manual?is to recreate the world of an artist whose few recorded sayings insist that he was not prepared to paint anything but what he saw.

Caravaggio
by Catherine Puglisi

Michelangelo Merisi da Caravaggio was one of the most innovative painters of his time, and one of the most momentous artists of any era. Rescued from neglect, he has become a cultural icon in the late twentieth century, not only for his art but also because of his violent and tragic life. Catherine Puglisi's highly praised monograph supersedes all previous studies of the artist by far. Making full use of the latest research and a series of dramatic recent discoveries, she has produced a concise,
clear-headed and comprehensive work of scholarship that also provides a moving biography of the artist and an incisive deconstruction of the genius with which he absorbed and transformed the artistic tradition of his time. Altogether, Puglisi's work—a profound achievement in its own right—reveals a poignant aspect to Caravaggio's life and work, which offers a deeper insight into his function as an artist than has ever been made possible before. The entirety of Caravaggio's works are discussed with expertise and illustrated in colour, while the book also contains an appendix of documents dating back to the sixteenth century, full notes and a wide bibliography, a checklist of works and full indexes. This authoritative and beautifully produced monograph is the standard work on Caravaggio: it is now accessible to the broadest audience yet in a no less sophisticated but all the more user-friendly (paperback) presentation.

**Caravaggio**
by John T. Spike

The result of over 20 years of research by a leading authority on Caravaggio, this work reproduces every known work of the artist. John T. Spike explores in detail Caravaggio's scandalous life and provocative work. Placing Caravaggio within the broad panorama of society and ideas at the turn of the 17th century, the author sets a detailed stage for an artist who has been called "the first modern painter." Caravaggio (1571-1610) reflected in his canvases his own desires and spiritual crises to an extent no one ever had imagined possible, and he shocked his contemporaries by portraying the saints and virgins of Christianity with the faces and bodies of his companions and lovers in Rome's demimonde. Accompanying the book is a CD-ROM in which all of Caravaggio's extant paintings, as well as lost and rejected works, are described. Each entry specifies the work's medium, dimensions, location, and provenance, and provides an annotated bibliography of sources. Most of the entries conclude with a brief technical analysis.

**Caravaggio: The Artist and His Work**
by Sybille Ebert-Schifferer

The young Michelangelo Merisi da Caravaggio (1571–1610) created a major stir in late-sixteenth-century Rome with the groundbreaking naturalism and highly charged emotionalism of his paintings. One might think, given the vast number of books that have been written about him, that everything that could possibly be said about the artist has been said. However, the author of this book argues, it is important to take a fresh look at the often repeated and widely accepted narratives about the artist's life and work. Sybille Ebert-Schifferer subjects the available sources to a critical reevaluation,
uncovering evidence that the efforts of Caravaggio’s contemporaries to disparage his character and his artwork often sprang from their own cultural biases or a desire to promote the artistic achievements of his rivals. Contrary to repeated claims in the literature, the painter lacked neither education nor piety, but was an extremely accomplished technician who developed a successful marketing strategy. He enjoyed great respect and earned high fees from his prestigious clients while he also inspired a large circle of imitators. Even his brushes with the law conformed to the behavioral norms of the aristocratic Romans he sought to emulate. The beautiful reproductions of Caravaggio’s paintings in this volume make clear why he captivated the imagination of his contemporaries, a reaction that echoes today in the ongoing popularity of his work and the fierce debate that it continues to provoke among art historians.

Caravaggio and the Creation of Modernity
by Troy Thomas

Undeniably one of the greatest artists of all time, Michelangelo Merisi da Caravaggio would develop a radically new kind of psychologically expressive, realistic art and, in the sixteenth and seventeenth centuries, would lay the foundations for modern painting. His paintings defied tradition to such a degree that the meaning of his works have divided critics and viewers for centuries. In this original study, Troy Thomas examines Caravaggio’s life and art in relationship to the profound beginnings of modernity, exploring the many conventions that Caravaggio utterly dismantled with his extraordinary genius. Thomas begins with an in-depth look at Caravaggio’s early life and works and examines how he refined his realism, developed his obsession with darkness and light, and began to find the subtle and clever ambiguity of genre and meaning that would become his trademark. Focusing acutely on the inherent tensions, contradictions, and ambiguities within Caravaggio’s paintings, Thomas goes on to examine his mature religious works and the ways he created a powerful but stark and enigmatic expressiveness in his protagonists. Lastly, he delves into the artist's final hectic years as a fugitive killer evading papal police and wandering the cities of southern Italy. Richly illustrated in color throughout, Caravaggio and the Creation of Modernity will appeal to all of those fascinated by the history of art and the remarkable lives of Renaissance masters.

Simon Schama’s Power of Art
by Simon Schama

"Great art has dreadful manners..."Simon Schama observes at the start of his epic exploration of the power, and whole point, of art. "The hushed reverence of the gallery can fool you into believing masterpieces are polite things, visions that soothe, charm and beguile, but actually they are thugs."
Merciless and wily, the greatest paintings grab you in a headlock, rough up your composure and then proceed in short order to re-arrange your sense of reality..."With the same disarming force, Power of Art jolts us far from the comfort zone of the hushed art gallery, as Schama closes in on intense make-or-break turning points in the lives of eight great artists who, under extreme stress, created something unprecedented, altering the course of art forever. The embattled heroes—Caravaggio, Bernini, Rembrandt, David, Turner, Van Gogh, Picasso and Rothko—each in his own resolute way faced crisis with steadfast defiance. The masterpieces they created challenged convention, shattered complacency, shifted awareness, and changed the way we look at the world. With powerfully vivid story-telling, Schama explores the dynamic personalities of the artists and the spirit of the times they lived through, capturing the flamboyant theater of bourgeois life in Amsterdam, the passion and paranoia of Revolutionary Paris, and the carnage and pathos of civil-war Spain. Most compelling of all, Power of Art traces the extraordinary evolution of eight world-class works of art. Created in a bolt of illumination, such works "tell us something about how the world is, how it is to be inside our skins, that no more prosaic source of wisdom can deliver. And when they do that they answer, irrefutably and majestically, the nagging question of every reluctant art-conscript... ‘OK, OK, but what’s art really for?’"

**Caravaggio: Complete Works**
by Sebastian Schultze

A revolution in painting: The mysterious genius who transformed European art. Caravaggio, or more accurately Michelangelo Merisi da Caravaggio (1571–1610), was always a name to be reckoned with. Notorious bad boy of Italian painting, the artist was at once celebrated and controversial: Violent in temper, precise in technique, a creative master, and a man on the run. This work offers a comprehensive reassessment of Caravaggio’s entire oeuvre with a catalogue raisonné of his works. Each painting is reproduced in large format, with recent, high production photography allowing for dramatic close-ups with Caravaggio's ingenious details of looks and gestures. Five introductory chapters analyze Caravaggio's artistic career from his early struggle to make a living, through his first public commissions in Rome, and his growing celebrity status. They look at his increasing daring with lighting and with a boundary-breaking realism which allowed even biblical events to unfold with an unprecedented immediacy before the viewer. An accompanying artist chronology follows Caravaggio's equally tumultuous personal life. This is the definitive work about Caravaggio for generations to come, to be delved into and put on display, with its slipcase neatly converting into a book stand.

**Caravaggio: A Life Sacred and Profane**
by Andrew Graham-Dixon

Michelangelo Merisi da Caravaggio lived the darkest and most dangerous life of any of the great painters. The worlds of Milan, Rome and Naples through which Caravaggio moved and which Andrew Graham-Dixon describes brilliantly in this book, are those of cardinals and whores, prayer and violence. On the streets surrounding the churches and palaces, brawls and swordfights were regular occurrences. In the course of this desperate life Caravaggio created the most dramatic paintings of his age, using ordinary men and women - often prostitutes and the very poor - to model for his depictions of classic religious scenes. Andrew Graham-Dixon's exceptionally illuminating readings of Caravaggio's pictures, which are the heart of the book, show very clearly how he created their drama, immediacy and humanity, and how completely he departed from the conventions of his time.
