The History of Tasmania
by John West

John West (1809-1873) was an English-born minister who received a Colonial Missionary Society post in Tasmania in 1838. West became an outspoken opponent of the ongoing government policy of transporting convicts from Britain to Tasmania. Around 1847 a wealthy supporter approached West to write the colony’s history, although it had been a British territory only since 1803. West accepted the task and, amid his campaigning and other responsibilities, completed this two-volume work which was published in 1852. It is divided between a straightforward narrative of events and thematic issues such as the treatment of the Aboriginal peoples and the issue of the convict transport system.

A Cargo of Women: Susannah Watson and the Convicts of the Princess Royal
by Babette Smith

Intrigued to discover a convict ancestor in her family tree, Babette Smith decided to investigate her life and the lives of the 99 women who were transported with her on the ship Princess Royal in 1829. Piece by piece she reveals the story of her ancestor the indomitable Susannah Watson who, trapped in the crowded filthy slums of Nottingham, stole because she could not bear to see her children starving’. Separated forever from her husband and four children, she was transported to Australia for 14 years. She endured the convict system at its worst, yet emerged triumphant to die in her bed aged 83 singing Rock of Ages’. Babette Smith reconstructs the lives of the women from the Princess Royal from fragments of information in shipping lists, official records, newspapers and court transcripts. Her research overturns stereotypes of women convicts as drunken whores and criminals. Caught in an England convulsed by change, they become the unwitting and unwilling pioneers of a new land. Many proved to be resourceful and
resilient, taking advantage of the opportunities offered by a new society. First published two decades ago, A Cargo of Women became a bestseller and remains one of the most valuable accounts of convict life in Australia. This new edition includes further information about the women from the Princess Royal and new illustrations.

In Tasmania: Adventures at the End of the World
by Nicholas Shakespeare

In this fascinating history of two turbulent centuries in an apparently idyllic place, Shakespeare effortlessly weaves the history of this unique island with a kaleidoscope of stories featuring a cast of unlikely characters from Errol Flynn to the King of Iceland, a village full of Chatwins and, inevitably, a family of Shakespeares. But what makes this more than a personal quest is Shakespeare's discovery that, despite the nineteen century purges, the Tasmanian Aborigines were not, as previously believed, entirely wiped out.

A History of Tasmania
by Henry Reynolds

This captivating work charts the history of Tasmania from the arrival of European maritime expeditions in the late eighteenth century, through to the modern day. By presenting the perspectives of both Indigenous Tasmanians and British settlers, author Henry Reynolds provides an original and engaging exploration of these first fraught encounters. Utilising key themes to bind his narrative, Reynolds explores how geography created a unique economic and migratory history for Tasmania, quite separate from the mainland experience. He offers an astute analysis of the island's economic and demographic reality, by noting that this facilitated the survival of a rich heritage of colonial architecture unique in Australia, and allowed the resident population to foster a powerful web of kinship. Reynolds' remarkable capacity to empathise with the characters of his chronicle makes this a powerful, engaging and moving account of Tasmania's unique position within Australian history.
My Home in Tasmania
by Louisa Anne Meredith

A keen botanist and artist, Meredith describes the island’s natural life in great detail in beautiful and evocative passages. The first volume covers the journey to the island and her initial impressions of it and provides fascinating examples of colonial attitudes in the period. In Volume 2 she provides more anecdotes of her life, including descriptions of the animals and journeys within the island, and also covers more social issues, looking at religion and custom in the colony.

Van Diemen’s Land
by James Boyce

Almost half of the convicts who came to Australia came to Van Diemen’s Land. There they found a land of bounty and a penal society, a kangaroo economy and a new way of life. In this book, James Boyce shows how the convicts were changed by the natural world they encountered. Escaping authority, they soon settled away from the towns, dressing in kangaroo skin and living off the land. Behind the official attempt to create a Little England was another story of adaptation, in which the poor, the exiled and the criminal made a new home in a strange land. This is their story, the story of Van Diemen’s Land.

Corruption and Skullduggery
by Alison Alexander

“It’s 1805, and Maria Riseley - single, poor and pregnant - finds herself in the gloomy Female Factory, Parramatta. Her future looks bleak: separation from her baby then back to the round of housework and sex that is the lot of an assigned female convict. Then Edward Lord arrives. Young, aristocratic, imperious, he wants a woman. A lieutenant in the marines, he has been posted to the tiny new settlement at Hobart Town, where women are scarce. So he has come to Sydney, a much more promising field.” So begins the story of Edward and Maria, told by Alison Alexander. It’s not just about two people from different social classes making their way in a new society; Alison uses their story to shine a light on early government in Van Diemen’s Land, exposing the corruption and skullduggery that went on at all levels of administration, from the top down.

Tasmania’s Convicts
by Alison Alexander

To the convicts arriving in Van Diemen’s Land’ it must have felt as though they’d been sent to the very ends of the earth. In Tasmania’s Convicts Alison Alexander tells the history of the men and women transported to what became one of Britain’s most notorious convict colonies. Following the lives of dozens of convicts and their families’ she uncovers stories of success’ failure’ and everything in between. While some suffered harsh conditions’ most served their time and were freed' becoming ordinary and peaceful citizens. Yet over the decades’ a terrible stigma became associated with the convicts’ and they and the whole colony went to extraordinary lengths to hide it. The majority of Tasmanians today have convict ancestry' whether they know it or not. While the public stigma of its convict past has given way to a contemporary fascination with colonial history’ Alison Alexander debates whether the convict past lingers deep in the psyche of white Tasmania.
