**The history of Saint James way or Camino de Santiago**

The Camino de Santiago, also known as the way of St James is the ancient Catholic pilgrimage route to the cathedral in Santiago de Compostela in Galicia in northern Spain. Legend has it that the bones of the apostle St James were brought by boat from Jerusalem to northern Spain and are buried under the site of what is now the city of Santiago de Compostela.

Saint James way has been considered to be an important Christian pilgrimage route more 1000 years. It was considered by the church to be one of the three pilgrimage routes on which sins could be forgiven. There are many routes to Santiago de Compostela, starting from a variety of points, from as far away as Belgium to as close as 100km from Santiago.
