The Silk Road in World History
by Xinru Liu

The Silk Road was the contemporary name for a complex of ancient trade routes linking East Asia with Central Asia, South Asia, and the Mediterranean world. This network of exchange emerged along the borders between agricultural China and the steppe nomads during the Han Dynasty (206 B.C.E.-220 C.E.), in consequence of the inter-dependence and the conflicts of these two distinctive societies. In their quest for horses, fragrances, spices, gems, glassware, and other exotics from the lands to their west, the Han Empire extended its dominion over the oases around the Takla Makan Desert and sent silk all the way to the Mediterranean, either through the land routes leading to the caravan city of Palmyra in Syria desert, or by way of northwest India, the Arabian Sea and the Red Sea, landing at Alexandria. The Silk Road survived the turmoil of the demise of the Han and Roman Empires, reached its golden age during the early middle age, when the Byzantine Empire and the Tang Empire became centres of silk culture and established the models for high culture of the Eurasian world. The coming of Islam extended silk culture to an even larger area and paved the way for an expanded market for textiles and other commodities. By the 11th century, however, the Silk Road was in decline because of intense competition from the sea routes of the Indian Ocean. Using supply and demand as the framework for analysing the formation and development of the Silk Road, the book examines the dynamics of the interactions of the nomadic pastoralists with sedentary agriculturalists, and the spread of new ideas, religions, and values into the world of commerce, thus illustrating the cultural forces underlying material transactions. This effort at tracing the interconnections of the diverse participants in the transcontinental Silk Road exchange will demonstrate that the world had been linked through economic and ideological forces long before the modern era.
China's Asian Dream: Empire Building along the New Silk Road
by Tom Miller

"China", Napoleon once remarked, "is a sleeping lion. Let her sleep, for when she wakes she will shake the world." In 2014, President Xi Jinping triumphantly declared the lion had awakened. Under his leadership, China is pursuing a dream to restore its historical position as the dominant power in Asia. From the Mekong River Basin to the Central Asian steppe, China is flexing its economic muscles for strategic ends. By setting up new regional financial institutions, Beijing is challenging the post-World War II order established under the watchful eye of Washington. And by funding and building roads, railways, ports and power lines—a New Silk Road across Eurasia and through the South China Sea and Indian Ocean—China aims to draw its neighbours ever tighter into its embrace. Combining a geopolitical overview with on-the-ground reportage from a dozen countries, China’s Asian Dream offers a fresh perspective on the rise of China’ and what it means for the future of Asia?

The Silk Road - Central Asia, Afghanistan and Iran: A Travel Companion
by Jonathan Tucker

Stretching from the ancient Chinese capital of Xian across the expanses of Central Asia to Rome, the Silk Road was, for 2,000 years, a vibrant network of arteries that carried the lifeblood of nations across the world. Along a multitude of routes everything was exchanged: exotic goods, art, knowledge, religion, philosophy, disease and war. From the East came silk, tea, jade, paper, porcelain, spices and Buddhism; from the West, horses, weapons, lions, precious stones and cotton. From its earliest beginnings in the days of Alexander the Great and the Han Dynasty, the Silk Road expanded and evolved, reaching its peak under the Tang and Byzantine empires and gradually crumbling along with the decline of the Mongol empire. In this beautifully-illustrated book, which covers the Central Asian section of the Silk Road - from Lake Issy Kul through Tashkent, Samarkand, Bukhara, the Kyzyl Kum Desert, Khiva and Merv to Herat, Kabul and Iran - Jonathan Tucker uses traveller’s anecdotes and a wealth of literary and historical sources to
celebrate the cultural heritage of the countries that lie along the Silk Road and illuminate the lives of those who once travelled through the very heart of the world.

**Tajikistan: A Political and Social History**
by Kirill Nourzhanov

This book is a historical study of the Tajiks in Central Asia from the ancient times to the post-Soviet period. For millennia, these descendants of the original Aryan settlers were part of many different empires set up by Greek, Arab, Turkic and Russian invaders, as well as their own, most notably during the Middle Ages. The emergence of the modern state of Tajikistan began after 1917 under Soviet rule, and culminated in the promulgation of independence from the moribund USSR in 1991. In the subsequent civil war that raged between 1992 and 1997, Tajikistan came close to becoming a failed state. The legacy of that internal conflict remains critical to understanding politics in Tajikistan a generation later. Exploring the patterns of ethnic identity and the exigencies of state formation, the book argues that despite a strong sense of belonging underpinned by shared history, mythology and cultural traits, the Tajiks have not succeeded in forming a consolidated nation. The politics of the Russian colonial administration, the national-territorial delimitation under Stalin, and the Soviet strategy of socio-economic modernisation contributed to the preservation and reification of sub-ethnic cleavages and regional identities. The book demonstrates the impact of region-based elite clans on Tajikistan’s political trajectory in the twilight years of the Soviet era, and identifies objective and subjective factors that led to the civil war. It concludes with a survey of the process of national reconciliation after 1997, and the formal and informal political actors, including Islamist groups, who compete for influence in Tajik society.

**Uzbekistan: Heirs to the Silk Road**
by Johannes Kalter

From the time of the Silk Road’s rediscovery by European pioneers and travellers in the 19th century, the fascination of this famous route has never been lost. From the second century BC
this 7000 kilometre, wickerwork pattern of traders’ roads linked China and the Roman Empire. It served the trade of luxury goods, notably silk, and stimulated the spread of ideas about religion, culture and art. The young republic of Uzbekistan, with its ancient urban cultural centres of Bukhara, Chiwa and Samarkand is the heartland of the Silk Road. The artistic and cultural history of the region, from the fourth century BC until the most recent past, is represented here in four main sections; Transoxania from the fourth century BC to the eighth century AD; Central Asia as a centre of Islamic conquest in the eighth century until the fall of the Timurian empire at the beginning of the 16th century; Turkestan from the 16th century up to the beginnings of the 20th century, and Usbekistan from the Russian conquest to the establishment of sovereignty. There are also sections on architecture, books, Islamic arts and crafts and the widespread wealth of textiles of the region. The cultural history of this region is illustrated here with pictures of archaeological finds and ethnographical objects from European and Uzbeki museums and private collections, many available for the first time.

Making Uzbekistan: Nation, Empire, and Revolution in the Early USSR
by Adeeb Khalid

In Making Uzbekistan, Adeeb Khalid chronicles the tumultuous history of Central Asia in the age of the Russian revolution. Traumatic upheavals—war, economic collapse, famine—transformed local society and brought new groups to positions of power and authority in Central Asia, just as the new revolutionary state began to create new institutions that redefined the nature of power in the region. This was also a time of hope and ambition in which local actors seized upon the opportunity presented by the revolution to reshape their society. As the intertwined passions of nation and revolution reconfigured the imaginations of Central Asia’s intellectuals, the region was remade into national republics, of which Uzbekistan was of central importance. Making use of archival sources from Uzbekistan and Russia as well as the Uzbek- and Tajik-language press and belles lettres of the period, Khalid provides the first coherent account of the political history of the 1920s in Uzbekistan. He explores the complex interaction between Uzbek intellectuals, local Bolsheviks, and Moscow to sketch out the flux of the situation in early-Soviet Central Asia. His focus on the Uzbek intelligentsia allows him to recast our understanding of Soviet
nationalities policies. Uzbekistan, he argues, was not a creation of Soviet policies, but a project of the Muslim intelligentsia that emerged in the Soviet context through the interstices of the complex politics of the period. The energies unleashed by the revolution also made possible the golden age of modern culture, as authors experimented with new literary forms and the modern Uzbek language took shape. Making Uzbekistan introduces key texts from this period and argues that what the decade witnessed was nothing short of a cultural revolution.

**The Hidden War: A Russian Journalist's Account of the Soviet War in Afghanistan**
by Artyom Borovik

Until his death in 2000, Artyom Borovik was considered one of the preeminent journalists in Russia. With The Hidden War he provided the world its first glimpse inside the Soviet military machine, capturing the soldiers’ terror, helplessness, and despair at waging war in a foreign land against an unseen enemy for unclear purposes. When first published, Borovik’s groundbreaking revelations exposed the weaknesses beneath the Soviet Union’s aura of military might, creating an enormous controversy both in Russia and around the world. A vital and fascinating portrait of the Soviet empire at the twilight of its power, this is a book that still resonates today. "An honest and graphic account of individual and general disillusionment during the very worst kind of war." -Christopher Hitchens, New York Newsday; "Alternately fascinating and horrific.... A fascinating look at the life and death of Soviet soldiers." -- Bill Wallace, San Francisco Chronicle; "I have read no other account of the war in Afghanistan equal to this ... this is literature." -- Graham Greene

The Great Game: The Struggle for Empire in Central Asia
by Peter Hopkirk
Peter Hopkirk’s spellbinding account of the great imperial struggle for supremacy in Central Asia has been hailed as essential reading with that era’s legacy playing itself out today. The Great Game between Victorian Britain and Tsarist Russia was fought across desolate terrain from the Caucasus to China, over the lonely passes of the Pamirs and Karakorams, in the blazing Kerman and Helmund deserts, and through the caravan towns of the old Silk Road—both powers scrambling to control access to the riches of India and the East. When play first began, the frontiers of Russia and British India lay 2000 miles apart; by the end, this distance had shrunk to twenty miles at some points. Now, in the vacuum left by the disintegration of the Soviet Union, there is once again talk of Russian soldiers “dipping their toes in the Indian Ocean.” The Washington Post has said that “every story Peter Hopkirk touches is totally engrossing.” In this gripping narrative he recounts a breathtaking tale of espionage and treachery through the actual experiences of its colorful characters. Based on meticulous scholarship and on-the-spot research, this is the history at the core of today’s geopolitics.
